ANTHONY POLSINELLI

Davines Regional Artistic Team

A small town boy working in his parents salon, Anthony learned the foundations of his craft. Eager to learn, he set off to study the different techniques of cutting and coloring. The fusion of the different methods across the industry have made Anthony into an artist.

Anthony has educated for Sebastian International and Academy F in Florence, Italy. Additionally, he has had the privilege of working with artists such as Robert Lobetta, Tim Hartley and Michael Polsinelli.

The next step was to open a Davines concept salon in his home town of Bolton, Ontario, Canada, which has been a success since opening.

Anthony lives his life through spirituality, humanity and the preservation of Mother Earth.

“Balance of mind, body, soul, and hair!” - Anthony
