

CUTTING CLASS

WITH RONNY KING

Unconventional. Mindful. Dedicated. Ronny is a stylist and the Creative Director of Verde Eco Salon in Jacksonville, Florida. His edgy yet wearable looks have earned him a spot on the Davines cutting team and the Top Stylist award in Jacksonville's local art and entertainment magazine. His approach is inspired by a painter who came to appreciate his art in a new light when, in a brash moment of frustration, he dipped his hand in red paint and slashed it across the canvas. Rather than striving for technical perfection which can bore, Ronny aims to create engaging looks by intentionally breaking with convention. Striking the delicate balance between tailored and effortless requires persistence, and Ronny

resonates with Davines' consistent dedication to sustainable products and community building. He practices commitment to mindfulness through his work as a Regional Master Trainer as he details the methods and reasons underlying a topic. He encourages stylists to ask questions, knowing that curiosity and collaboration will sustain momentum for consistent improvement within the hair industry.
