

COVER WITH CONFIDENCE

Monday, March 7th
10:00am-5:00pm

Immerse yourself in this 1-day Cover with Confidence seminar.

In this seminar, we shall uncover the truth about white hair. We aim to debunk the myths around white hair coverage in order to find solutions for the common challenges faced in salon.

There will be a focus on how natural pigments change and how this change affects the coloring process, formulation and application on white hair.

We explore how to use Davines color lines to support desired outcomes for the client.

This will ensure you feel confident in the choices you make for your everyday services.
