marie kieffer

chop, swish, set - marie kieffer is our all-round hair nerd. she'll show you how to master the scissors, the sprays and the colours to take you beyond your comfort zone. unsurprisingly, her coffee is short and hot, just like her hair. she'll push you into new techniques and give you the freedom to explore your repertoire in cutting, colouring and styling. fun fact: she breeds wild cheetahs in her spare time.
